

☒ I PLEDGE TO VOTE YES ON 1 IN 2014!

Because of radical court rulings which struck down protections for abortion-vulnerable women and girls, Tennessee has become a destination for those seeking unregulated abortion. Nearly 25% of all abortions in Tennessee are now performed on out-of-state women and nearly half of the state's abortion facilities are not inspected or licensed by the TN Department of Health due to these court decisions*. In November 2014 Tennessee voters will decide whether or not to restore basic health and safety standards in our state for women and girls considering abortion.

I will vote YES on 1 in 2014 to promote health and safety standards in Tennessee for women and girls considering abortion and to prevent Tennessee from remaining an abortion destination.
